

10th March 2020

Dear Parents

We have been speaking to the children about regularly washing their hands and other measures they need to take to help them keep healthy in the current climate. The children's comments showed a good awareness of how to keep safe given the current information available.

We are looking at future trips and events and evaluating potential risks. You will be informed as appropriate, should trips or events be postponed.

To support keeping healthy, could you kindly send your child in with a water bottle labelled with their name. We have set up a rota for children to regularly wash their hands during the school day. We are also using anti-bacterial wipes and sprays in communal areas. Please do reinforce with your child the need to follow instructions and procedures.

Please see below links with further advice and if you have any questions, please do contact me.
