

# ST JOSEPH'S VIRTUAL ZOO

The idea for a virtual zoo came from Ava in Year 6. Her vision was not only creative but perfect to engage children in reading about a range of animals and habitats whilst providing a stimulus for writing, art and design. The children were buzzing with ideas and keen to present their work.

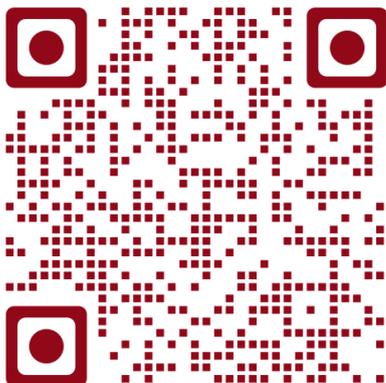

This is such a great suggestion and we will be using Ava's idea for future projects through the year. Ava can be proud that this is her legacy to St Joseph's and something for us to build on.

Do please read Ava's account. Another excellent example of pupil voice at its best. Well done to all the children and staff for your great work, you've made us all very happy.

NURSERY VIRTUAL ZOO QR CODE

WHOLE SCHOOL VIRTUAL ZOO QR CODE

The PTA are hoping to set up a donation link so if school families or friends and family would like to donate in recognition of the children's hard work it would be greatly appreciated. Money raised will be going to improve music within the school.

The PTA will share the link next week.
