

For Maths Week I would like you to create your very own  
**'Figure Me Out'** poster.

You can design your poster however you like BUT your poster must have Maths questions so people can figure you out.

Some numbers to include could be:

- Your age
- Your shoe size
- Your home number
- Your birth year
- Your birth month
- How many siblings you have
- Number of pets in your house
- Number of letters in your name
- Your height
- Your favourite number

I am looking forward to seeing your posters, please hand your poster to your class teacher by **Monday 28th November**.

Mrs Gallagher
